Doug Buyar, Area Manager, Transportation Division

WSP Canada Inc.

11039 78 Ave Suite #99

Grande Prairie AB T8W 2J7

Re: Letter of reference for Gas Track Engineering Ltd.

To whom it may concern:

Jason Paziuk, founder of Gas Track Engineering, worked for me at Alberta Transportation in the late 1980's and more recently at WSP from 2014 to 2019. At WSP Jason was a project manager as well as branch manager of WSP's Grande Prairie survey division. Our departments collaborated on projects and proposals and I know Jason to be credible and knowledgeable.

Recent projects included:

- Legal survey of range road 84 near Wembley, AB, 2018
- Legal survey of Highway 688 near Peace River, AB, 2018
- Proposal for Forestry Trunk RRD legal survey near Grande Prairie, AB, 2018
- Highway 40 widenings near Grande Prairie, AB, 2019

Jason Paziuk provided Alberta Land Surveyor oversight and project management support for these projects. Mr. Paziuk satisfactorily completed his responsibilities and deliverables in an efficient and professional manner.

Sincerely,

Doug Buyar
Area Manager
